

CHERRY ROLLERMOUSE™

ERGONOMIC MOUSE SOLUTION

Models may vary from the image shown

Work more comfortably, more efficiently and in a healthier manner with an alternative mouse concept

The CHERRY ROLLERMOUSE™ is a joint project from CHERRY and the ergonomics experts at Contour Design. Unlike a traditional mouse, you control the cursor by sliding and rolling a roller. The user can click either by pressing on the roller, or using the buttons below. Due to the intuitive operation, only a few hours of familiarization are necessary. After that you won't want to do without your CHERRY ROLLERMOUSE™ ever again!

The advantages of this new type of input device are very diverse. By placing it directly in front of the keyboard, you don't have to reach over anymore if you want to switch from typing to mouse operation. Your hands rest at all times in a relaxed posture on the comfortably padded palm rest. Since you don't have to reach out with your right arm too to operate the mouse, your shoulders remain in a more natural position. If you suffer from RSI (repetitive strain injury, or "mouse arm"), the CHERRY ROLLERMOUSE™ can provide noticeable relief. An ergonomic mouse alternative can help with carpal tunnel syndrome, tendosynovitis, ulnar channel syndrome or simply with tension in the arm, shoulder and neck area. But even if you do not suffer from any of these complaints or want to take preventive action, working with the CHERRY ROLLERMOUSE™ is definitely extremely comfortable, efficient and a lot of fun. You can rely on the design of this mouse. The IGR Institut für Gesundheit und Ergonomie e.V. (Institute for Health and Ergonomics) has confirmed the ergonomics and usability of the roller mouse with a test certificate.

Technically, it leaves no wish unfulfilled either. The movements of the roll bar are optically scanned with up to 2,800 dpi. If the cursor is too fast, you can reduce the speed to 600 dpi. It is not only the speed that can be adjusted, but also the click resistance and even the click noise of the roller. Additional buttons for copying, pasting and double-clicking make your work noticeably easier.

Adjustable keyboard supports are included so that you can use your desired keyboard together with the roller mouse. You can adjust them to bring your favorite keyboard to the right height.

With the CHERRY ROLLERMOUSE™ you can work in a more relaxed, comfortable and efficient manner. Whether you suffer from one of the complaints listed above or not, you will not regret switching to this innovative system.

Key Benefits

- Innovative mouse alternative to prevent RSI, mouse arm and other complaints
- Comfortable and efficient working in a natural posture
- Change from mouse to keyboard without changing hands
- Padded palm rest
- Fits almost any keyboard thanks to height-adjustable holder
- Practical additional buttons for Copy&Paste
- Certified by the IGR Institute for Health and Ergonomics
- Robust aluminum construction with high-quality components

ROLLERMOUSE™ is a trademark of the Contour Design Group

CHERRY ROLLERMOUSE™

ERGONOMIC MOUSE SOLUTION

Key benefits

Mouse

- Material: Aluminum, incl. removable synthetic leather covered wrist rest
- Scanning: Optical
- Resolution: 600, 800, 1000, 1200, 1400, 1600, 1800, 2000, 2400, 2800 DPI (adjustable)
- Number of Keys: 8 (including double-click, copy & paste)
- Design: Wrist rest with ergonomically integrated mouse control
- Disinfectable synthetic leather
- Keyboard supports to individually adjust the height of the keyboard- for optimal comfort and a relaxed working posture

Weight

Mouse:	approx. 710 g
Short keyboard supports	each approx. 5 g
Long keyboard supports	each approx. 43 g
Total weight (with packaging)	approx. 1080 g

Interface

USB

Product Approvals

- CE

System Requirements

USB port
macOS or Windows

Box Contents

- CHERRY ROLLERMOUSE™
- Palm rest
- 2 short keyboard supports
- 2 long keyboard supports
- Key for removing wrist support

Dimensions

- CHERRY ROLLERMOUSE™ approx. 410 x 82 x 24 mm
- Palm rest approx. 400 x 73 x 21 mm
- Short keyboard supports approx. 37,5 x 50 x 5,5 mm
- Long keyboard supports approx. 160 x 50 x 11 mm
- Packaging approx. 445 x 140 x 45 mm

Storage Temperature

-15 °C to 60 °C, max. 85 % humidity

Working Temperature

0 °C to 40 °C, max. 85 % humidity

Packaging unit

Number of products in the master package: 10
Number of master packages per pallet: 24

Warranty

We put a lot of dedication and hard work into the development of our products and we are proud of their quality. This is why, in addition to the statutory guarantee mentioned in the operating instructions, we are granting an expanded manufacturer's guarantee that is subject to the conditions stated below.

For the first two years after delivery, the statutory warranty applies. In the third year after delivery, CHERRY voluntarily grants an additional warranty according to the following conditions ("extended warranty"). In the event of a defect, please contact the seller of your CHERRY product. Do not carry out any repairs on your own and do not open the product. There is no warranty if unauthorized changes to the product cause a defect.

Conditions for the extended warranty

In the case of a defect after the first 2 years after delivery of the CHERRY product, CHERRY grants its customers for the additional period of one year the right to assert claims for cure, i.e. demand that the defect is remedied or a thing free of defects is supplied. The extended warranty is to be asserted against the seller of the CHERRY product upon presentation of the original invoice, proof of purchase or a comparable proof of the time of purchase.

CHERRY, and the seller of the CHERRY product, where applicable, shall remedy the defect in the event the customer has justified claims for cure under the terms of the extended warranty.

Excluded from the extended warranty are damages caused by improper use, in particular by the effects of chemical substances, other damages caused by external influences, as well as normal wear and tear and optical changes, in particular discoloration or abrasion of shiny areas. Also excluded from the extended warranty are accessories and other parts which are not an integral part of the purchased item..

Errors, technical changes and delivery delays may occur. Technical information refers only to the specifications of the products. Features may differ from the information provided.
