

## PROTECTION & PERFORMANCE

CHERRY'S COMPUTER INPUT DEVICES ARE BUILT FOR THE DEMANDS OF THE HEALTHCARE INDUSTRY.

Healthcare facilities worldwide rely on CHERRY keyboards and mice to protect their patients' sensitive data, withstand light cleaning and maximum disinfection control, and perform each and every time. That makes everyone feel just a little bit better.

## SECUREBOARD 1.0

Endpoint Security Begins with the Keyboard

Part Number: JK-A0400EU-2 MSRP: \$85.00

Corded

TAA Compliant

The CHERRY SECURE BOARD 1.0 incorporates access control and full keyboard encryption to protect the integrity of customers' input data and support network security.

- Contact and contactless integrated Smart Card Reader with secure pin entry
- Works with customer application to authenticate user identity
- TLS 1.3 protocol provides authentication of the keyboard to the ThinClient or server
- Secure data is transmitted between the keyboard and the ThinClient or Server is encrypted when the Secure status LED is lit
- Encryption is enabled through CHERRY developed tools and libraries based on digital certificates

## EZCLEAN™ KC 1000

Easy to Type. Easy to Clean.

Ideal for healthcare environments, CHERRY's EZCLEAN™ KC 1000 keyboard features a secure-fitting, smooth silicone cover that's easy to clean with most common cleansers and provides an exceptional tactile feel. Traditional keyboards, and even some sealed antimicrobial keyboards, are vulnerable to germs and bacteria, especially in hard-to-clean areas.

Part Number: EZN-0800EU-0 (white); EZN-0800EU-2 (black) MSRP: \$52.00

Splash Resistant
