CHERRY

ON GUARD

CHERRY INPUT DEVICES DEFEND AGAINST POTENTIAL INTRUSIONS OF COMPUTER SYSTEMS.

Security starts at the input device. CHERRY's keyboards protect government data from malicious actors. Whether these actors are attempting to gain network access through internal or external means, CHERRY security features work with your applications to provide access control and encrypted communication. Our portfolio offers full keyboard encryption, contact and contactless integrated smart card readers, fingerprint readers, and secure PIN entry - designed to work with Common Access Cards (smart cards). Other input devices offered, such as fingerprint ID mice and USB-connected smartcard readers, provide additional implementation options.

SECURE BOARD 1.0

Endpoint security begins with the keyboard

Part Number: JK-A0400EU-2   MSRP: $85.00

Corded   TAA Compliant

The CHERRY SECURE BOARD 1.0 incorporates access control and full keyboard encryption to protect the integrity of customers' input data and support network security.

→ Intelligent security keyboard with integrated reader for smart cards and cards/tags with RF/NFC interface

→ Secure mode with authentication and encryption, especially with thin clients

→ PC/SC smart card reader, CCID compatible

→ Standard for Windows and Linux

→ Satisfies FIPS-201 requirements

KC 1000 SC

Legendary reliability & security

Part Numbers:
JK-A0100EU-2   MSRP: $60.00
JK-A0104EU-2   MSRP: $74.00 TAA Compliant

Corded   TAA Compliant   SSO Single Sign On

The KC 1000 keyboard offers a familiar user layout coupled with the requirements of strong access control.

→ Smart, wired security keyboard with integrated chip card terminal

→ One-handed operation of smartcard module

→ PC/SC smartcard reader

→ Secure PIN entry

→ Protocols: T=0, T=1, S=8, S=9, S=10

→ EMV Level 1 approved

→ Reading/writing ISO 7816 compliant smartcards

→ Flat design, low smart card contacting unit with full travel keys

ST-1144U

Provides secure terminal access

Part Number: ST-1144UB MSRP: $48.00

→ USB-connected smartcard reader

→ Single-handed operation

→ PC/SC smartcard reader

TAA Compliant   SSO Single Sign On

MC 4900 FINGERPRINT ID MOUSE

Little to no opportunities for security breaches

Part Number: JM-A4900 MSRP: $129.99

→ Integrated fingerprint reader

→ Easy login using fingerprint

→ 3 button mouse

→ Optical sensor (1375 DPI)

SSO Single Sign On
